

Fly Away

Orleans

Sometimes I get so angry with you
You treat me like an old worn out shoe
I've been here for you for oh so long
One day you could reach and find me gone
One of these mornings, I could wake up with wings
And I'll be singing

Fly away
I could fly away
And if I'm in your way
I could be gone tomorrow

Some days I love you, some days I don't
First you say you will, and then again you won't
Well, I guess all love has its ups and downs
Maybe that's why I stay around
A man can hurt for just so long
And he'll start singing his travelling song

Fly away
I could fly away
And if I'm in your way
I could be gone tomorrow
Tomorrow

Nobody knows how much time we have
It's slipping like sand right through the glass
Nobody knows how much time we have
It's slipping right by

It should be easy to keep our love alive
There is no reason we can't take the time
Yet we live as if we had centuries
And all the world in which to be
But the end could come at any time
For a love like yours and mine

Could fly away
It could fly away
Baby, you know if I'm in your way
I could be gone tomorrow
Tomorrow

I could fly away
I'm gonna keep on flying
Fly away
Somehow I'll stop my crying
I'm in your way
I'll fly away
I could be gone, I could be gone tomorrow
Tomorrow

I could fly away
I'm gonna fly away, yeah
Fly away
Don't know where I'm gonna stay
I'm in your way

I'll fly away
I could be gone, I could be gone tomorrow
Tomorrow

I could fly away
Fly away
I'm in your way
