I Found Someone

Orleans

Well, well, well
Listen to me
Whoa, whoa, whoa

Time used to like working against me
The daylight's so short and night's too long
Cold winter air helped my heart prevent me
From feeling the sun and singing my song

Until I found someone to give my love to
Somebody to keep me warm
I found someone who I can run to
Who gives me a love worth living for

I longed for a change in season
Hoping that spring could find my heart
She came along, gave my life a reason
Bringing with her a brand new dawn

Well, I'm so glad that
I found someone to give my love to
Somebody to keep me warm
Oh, I found someone who I can run to
Who gives me a love worth living for
Oh yeah, yeah

And when I'm by myself
I'm not lonely (I'm not lonely)
I don't want no one else
'Cause I need her only

Friends say there's a glow around me
It comes from inside, I'm feeling fine
Here to stay is the warmth that surrounds me
I'm taking my time because it's mine

Now that I found someone to give my love to
Somebody to keep me warm
Ooh, I found someone who I can run to
She gives me all her love (She makes me happy)
She gives me all her love (Makes me so glad that)

I'm so glad that I found someone to give my love to
Somebody to keep me warm
Ooh, I found someone who I can run to
I got to say it one more time (She makes me happy)
Because I'm so glad she is mine (Makes me so glad that)
I found someone to give my love to
