

# Keep On Shining

Orleans

My love, come here  
I've got something to say to you  
Your love is so dear  
That when I'm away from you  
You're the only thing that keeps me going  
Your love is the light that's showin' me the way

Keep on shining your love on my life  
'Cause your love is my guiding light  
Keep on shining your love on my life  
Show me the way

My time with you is so precious to me  
And my bond with you makes me able to see things through  
When I'm frozen in indecision  
You warm me with your vision

Keep on shining your love on my life  
'Cause your love is my guiding light  
Keep on shining your love on my life  
Oh, show me the way

And when I'm far away from my destination  
You are my inspiration

Keep on shining your love on my life  
'Cause your love is my guiding light  
Keep on shining your love on my life  
Oh, show me the way

Keep on shining your love on my life  
'Cause your love is my guiding light  
Keep on shining your love on my life  
Oh, show me the way
