

# Love's Not Just For Other People

Orleans

Ooh-ooh  
Ooh-ooh

Open eyes, another morning  
And I still see the world in shades of blue  
I was flying in my dreams  
But when I wake, I'm still lying here thinking of you  
Tell me why I keep on drifting  
Like a ship on a human sea  
Can I cut in line, speed the wheel of time  
And find the one who looks for me?

I know love's not just for other people  
I want to find someone to call my own  
I know love's not just for other people  
We weren't put here to live this life alone

Look around at all the other faces  
On this search that we all share  
Make a sound, shake a hand, maybe get up and dance  
Just let me know you're there  
In a crowd, just when you least expect it  
May be when your dream comes true  
Make it so, let your heart be open  
To the light that shines on you

I know love's not just for other people  
We weren't put here just to pass the time  
I know love's not just for other people  
Love's not just for other people  
Love's not just for other people, no  
There's enough to go around for you and I

(I'll hold on) I'll pray and I'll wait  
'Cause I've been told it's never too late

And I know that love's not just for other people  
We weren't put here just to pass the time  
I know that love's not just for other people, no  
There's enough to go around for you and I

(I know love's not just for other people)  
And if we care, and we share  
Then love will light our way  
(Love's not just for other people)  
I want love (Love's not just for other people)  
I need love (Love's not just for other people)  
'Cause it makes this world so much brighter day by day  
(Love's not just for other people)  
I'm gonna find someone to call my very own  
(Love's not just for other people)  
'Cause I want love (Love's not just for other people)  
I need love (Love's not just for other people)  
Yeah  
And you know we were not put here to live out our lives alone  
(Love's not just for other people)
