Sunset

Orleans

(Now) Open your window
Fly over the trees
And onto the sunset ahead
When you find your soft cloud
To lay your head on
Well God don't forget about me

Not it used to be so easy
To float like the wind
And show everybody else how
Now it seems they all know
How to do that and more
And left you behind in the while

But I'll be along in a minute, uh huh
Sometimes it gets hard to be
And you won't regret
When you hear the angels sing sweetly
But it's always been you and me
Yeah it's always been you and me

(Now) Open your window
Fly over the trees
And onto the sunset ahead
When you find your soft cloud
To lay your head on
Well God don't forget about me

Yeah 'cause I'll be along
In a minute, yeah yeah
Sometimes it gets hard to leave
And you won't regret
When you hear the angels sing sweetly
It's always been you and me
It's always been you and me

Yeah It's always been you and me
And it'll always be you and me
