

Wanderlust

Orleans

You might think I'm settled, you might think I'm satisfied
Got the sweetest woman a man ever lay alongside
So it seems so strange that this restlessness keeps building up
inside

Got to wander, I got to see what I can see
Because wanderlust got a hold on me

You know how to love me, you give me everything a man could need
I get you when I want you but you understand if I have to leave
There's a hunter in my blood and I don't if I can stop the flood

Got to wander, I got to get out on the street
Because wanderlust got a hold on me

I'd never leave you, I love you too damn much
Just sometimes I get hungry for the thrill of a stranger's touch
Don't think that you're losing just because I'm out there cruising
