I want to give you all of me
You decide what you can keep
How much is not enough?
How long do you think that you can sleep?
Open up your eyes without the sun
Open up your eyes and see exactly what I've done

Cut it out and leave it in your hands
Can you feel it beating for you?

I want to see what hurts you
Just to know if it hurts me
I want to grip your every thorn to show you how I bleed
I need you to feel safe around me
Tell me, why don't you feel safe around me anymore?

Cut it out and leave it in your hands
Cut it out and feed it to you
Cut

I've always seen the dark
But now I know how it feels
A presence you can't ignore
A fear that you know is real
I'm terrified of the wrongs I'd do for you
Because, I know, I know, there's no wrong I wouldn't do

Cut it out and leave it in your hands
Can you feel it beating for you?

Cut it out and leave it in your hands
Cut it out and feed it to you
