He put you thru it but I'm not him  
Took off the roof so you can hop in  
It's been a minute since we locked in, since we locked in  
Bad bitch they don't deserve you  
No matter how hard that it gets you make it work for you  
Cuz you top ten  
It's been a minute since we locked in, since we locked in

Girl, pull up stop calling me

I wanna feel yo energy  
Keep you close like enemies  
But you like my centerpiece  
We don't stay at embassy  
I just copped a bnb  
The phone on dnd  
Sex on the balcony  
I can satisfy you  
Get what you want  
Without you asking  
We can slide in that ghost  
And disappear just like its magic  
Don't be actin brand new  
I might just rip you out that plastic  
Bout that action  
We only smoke exotic, dumping ashes
