

Spill My Liquor

Oscar and the Wolf

Called you up when I needed some protection
You're the other side of my reflection
Late night when I'm free fallin'
Miss your bright eyes the way you moan
Sci-fi with you on my brain
High life with a taste of fame
Touch down in the danger zone
This is how I get when I stay alone

And I spill my tears and I spill my liquor
And I'm in the dark when I call your name
And I spill my tears and I spill my liquor
I spill my liquor
Spill my liquor

And I spill my tears and I spill my liquor
And I'm in the dark when I call your name
And I spill my tears and I spill my liquor
I spill my liquor
Spill my liquor

Always on the side of your perfection
I would always follow your direction
Midnight on a curtain call
Washed away and overthrown
Ionized by a tidal wave
Hazy eyes and the taste of flames
Touch down in the danger zone
This is how I get when I stay alone

Oh baby, you're all I need
With starlights a fantasies
Then you tell me that we grew apart
And just like that you break my heart

And I spill my tears and I spill my liquor
And I'm in the dark when I call your name
And I spill my tears and I spill my liquor
I spill my liquor
Spill my liquor

And I spill my tears and I spill my liquor
And I'm in the dark when I call your name
And I spill my tears and I spill my liquor
I spill my liquor
Spill my liquor
