

Taste

Oscar and the Wolf

Can I get a taste of this?
I will never be the same after this
I'm falling out of pla-, falling out of place
Yeah

But can I get a taste of this?
Not sure how I became just like this
I'm falling into space, falling into space

Then I need it stronger than before just to like it
I'm almost falling on the floor and try to hide it
Then you run up on the stairs, trying to chase me
Find me standing in your shoes and fucking hate me

Just wanna forget how
To love you
Just wanna forget how
To love you
To love you
Just wanna forget how
To love you
To love you
To love (to love)
