

## Boss

Otep

From nothing I came erupting  
Now I'm the girl who became king

I'm not a boss bitch  
I'm just a boss, bitch  
I'm not a boss bitch  
I'm just a boss, bitch  
I'm not a boss bitch  
I'm just a boss, bitch

I don't need testicles or Benjamins  
To be the best, this ever been  
It'd take the death of a thousand men  
To obey me from my throne again  
I'm hotter than cayenne  
Ask your girl who the fuck I am  
Clark Kent or Superman  
Marvelous like Iron Man  
Mark Twain with a hell-right hand  
Rubbing the parts that break the dam  
Now scream my name like they do at my shows  
"Otep, but you're a pussy"  
Tell me something I don't know  
She can keep the straps, she can keep the rope  
I'm an alpha, baby, I got plenty of those

I'm the girl who became king

I'm not a boss bitch  
I'm just a boss, bitch  
I'm not a boss bitch  
I'm just a boss, bitch  
I'm not a boss bitch  
I'm just a boss, bitch

I been fighting stereotypes since I burst on the scene  
I been breaking glass ceilings like iPhone screens  
To the critics, the cynics, the drones and the clones  
I kept my fist raised even when I was alone  
Cause no one believed in me except me  
They tried to stifle my fire with gasoline  
[?] verdict, I destroyed them with ease  
And now my wolves be howling in the hungry key

I want you to forget everything you've been told  
I want you to challenge gender roles  
Loud and proud, and yes I'm blessed  
But I earned this crown

I'm the girl who became king

I'm not a boss bitch  
I'm just a boss, bitch  
I'm not a boss bitch  
I'm just a boss, bitch  
I'm not a boss bitch  
I'm just a boss, bitch

Yes I'm blessed but I earned this crown
