

Molotov

Otep

Yeah, I'm preaching on this one
If they become violent, don't expect us to remain silent

This goes out to all the tainted racists and nazi believers:
Why don't you go find a bunker
And follow your fucking leader!

Throw a molotov and let 'em play catch with it
Nazi scum! Watch 'em run!
Throw a molotov and let 'em play catch with it
Traitor Trump set us up - lock him up!
Throw a molotov and let 'em play catch with a fist to the face of the 'superior race'
Cause now there's consequences when you advocate hate
Stepping out the shadows was your last mistake

If you want a war, you're gonna limit your life span
Just ask the nazis, the fascists, the ku klux klan
You don't belong on this land
If you're a true believer of the great deceiver
Then hunker down in a bunker, and follow your leader

Throw a molotov and let 'em play catch with it
Nazi scum! Watch 'em run!
Throw a molotov and let 'em play catch with it
Traitor Trump set us up - lock him up!
Throw a molotov and let 'em play catch with a fist to the face of the 'superior race'
Cause now there's consequences when you advocate hate
Stepping out the shadows was your last mistake

It's the season of treason
Opportunists and demons
Morally suffocated
Mentally constipated
Are you a true believer of the great deceiver?
Then hunker down in a bunker, and follow your leader

Throw a molotov and let 'em play catch with it
Nazi scum! Watch 'em run!
Throw a molotov and let 'em play catch with it
Traitor Trump set us up - lock him up!
Throw a molotov and let 'em play catch with a fist to the face of the 'superior race'
Cause now there's consequences when you advocate hate
Stepping out the shadows was your last mistake

Come on!
Resistance rise up!
Here we go!

Bars and stars!
Fuck your flag!
We ain't never going back!
Bars and stars!
Fuck your flag!
We ain't never going back!

Bars and stars!
Fuck your flag!
We ain't never going back!

So if you're a courageous racist and a nazi believer:
Then why don't you hunker down in that bunker
And follow your fucking leader!
