Otep

Don't fret, precious, I'm here
Step away from the window
And go back to sleep

Lay your head down, child
I won't let the boogeyman come
Who's counting bodies like the sheep
To the rhythm of the war drums?
Pay no mind to the devils
Pay no mind to the devils
Head down, go to sleep
To the rhythm of the war drums

Pay no mind what other voices say
They don't care about you
Like I do (like I do)
Safe from pain
And truth and choice
And other poison devils
See they don't give a fuck about you
Like I do

Just stay with me
Safe and ignorant
Go back to sleep
Go back to sleep

Lay your head down, child
I won't let the boogeyman come
Who's counting bodies like the sheep
To the rhythm of the war drums?
Pay no mind to the devils
Pay no mind to the devils
Head down, go to sleep
To the rhythm of the war drums

I'll be the one to protect you from
Your enemies and all your demons
I'll be the one to protect you from
A will to survive and a voice of reason
I'll be the one to protect you from
Your enemies and your choices son
One and the same, I must isolate you
Isolate and save you from yourself

Swaying to the rhythm
Of the new world order and
Counting bodies of the sheep
To the rhythm of the war drums
The boogeymen are coming
The boogeymen are coming
Keep your head down, go to sleep
To the rhythm of the war drums

Stay with me
Safe and ignorant
Just stay with me

Hold you and protect you from the other ones
The evil ones
Don't love you, son
Go back to sleep
