

## Trigger Warning

Otep

We are the many  
They are the few  
Our battle cry  
Me too

She doesn't see him yet  
But he's picked up her scent  
Cause she was meant to serve  
A trophy he has earned  
With the devil in his eye  
And violence on his mind  
He charms his way inside  
Now the spiders caught a fly

It's gnawing it's clawing  
Trigger warning  
It's gnawing it's clawing  
Trigger warning  
It's gnawing it's clawing  
Trigger warning  
It's gnawing it's clawing

He raped her cause the way that her  
Dress shaped her while she fell asleep  
But he opened her and said  
Bitch, you get what you deserve

He raped her cause the way that her  
Dress shaped her while she fell asleep  
But he opened her and said  
Bitch, you get what you deserve

This isn't where the story ends  
He didn't know she'd stolen the gun from her friends  
And in the darkened room  
(Take it off)  
She'd ask him to remove  
The cross from around his neck  
That once belonged to her friend Beth  
And he says "I'm really sorry"  
(I'm sorry)  
She says "Oh no, we're just getting started"

It's gnawing it's clawing  
Trigger warning  
It's gnawing it's clawing  
Trigger warning  
It's gnawing it's clawing  
Trigger warning  
It's gnawing it's clawing

He raped her cause the way that her  
Dress shaped her while she fell asleep  
But he opened her and said  
Bitch, you get what you deserve

He raped her cause the way that her

Dress shaped her while she fell asleep  
But he opened her and said  
Bitch, you get what you deserve

You hear that click, you son of a bitch  
Trigger warning  
Trigger warning

You hear that click, you son of a bitch  
Trigger warning  
Trigger warning

You hear that click, you son of a bitch  
Trigger warning  
Trigger warning  
Trigger warning  
Trigger warning

Trigger warning  
Trigger warning

You hear that click, you son of a bitch  
Trigger warning  
Trigger warning

You hear that click, you son of a bitch  
Trigger warning

You hear that click, you son of a bitch
