## Other Lives

Dust fills the air, tired and worn  
I heard you laughing aloud it was only a ghost  
Now I hit the morning with my own shadow

But you turn me sideways  
Oh you turn me sideways

Outside's the night, lifeless in form  
I heard you talking to me though the words came out slow  
Let's wait for the morning 'til our shadows grow

But you turn me sideways  
Oh you turn me sideways  
Oh you turn me sideways

And it's a cold night  
But it's bright  
Cause you're the one ah

Oh you turn me sideways  
Oh you turn me sideways  
Oh you turn me sideways  
Oh you turn me
