

Coffins

Otherwise

You're just a vulture circling wanting
What's in your wallet now
Your bank account nothing nah
Nothing but paper kings
As worthless as diamond rings
Buying up everything a predator consuming
Trying to buy time a customer with nothing nah
Nothing but dollar signs come on tell me
Have you lost your goddamn mind

You can't take it with you
Nothing you can do to stop it
Every penny gets forgotten
Cause coffins don't come with pockets
You can't take it with you
Dying in the shoes you walk in
All for profit, all too often, we've forgotten
Coffins don't come with pockets

Here in America, corporate culture
Taking you over with all the bullshit that they sold you
What's in your heart now, what's in your soul now
Trying to get the gold now, Nobody to hold now
Sold out, your casket is closed now

You're just a vulture circling, wanting
What's in your wallet now
Your bank account nothing (ah)
Nothing but paper kings (nothing)
As worthless as diamond rings

You can't take it with you
Nothing you can do to stop it
Every penny gets forgotten
Cause coffins don't come with pockets
You can't take it with you
Dying in the shoes you walk in
All for profit, all too often, we've forgotten
Coffins don't come with pockets

How much will it take
How much will it take to make you happy
How much will it take
How much will it take
How much will it take
How much will it take to make you happy
How much will it take
How much will it take
Are you happy now?
Are you happy now?

You can't take it with you
Nothing you can do to stop it
Every penny gets forgotten
Cause coffins don't come with pockets
You can't take it with you
Dying in the shoes you walk in

All for profit, all too often, we've forgotten
Coffins don't come with pockets
