

Dead in the Air

Otherwise

Not living up to expectations
Use up my love so selfishly
Is it just imagination or are
You killing the best of me
You don't know how it feels
I can't live like a stranger around you no
No you don't feel the same
You don't let all the pain surround you

All my words are dead in the air
Something's got you running scared
If you won't ever hear what you don't what to know
My words are dead in the air oh
You're never going to know
You're never going to know
You're never going to know

You're a deadly intoxication
You take a life so silently
You fill me up with trepidation
I want to love you so violently
You don't know how it feels
I can't live like a stranger around you no
No you don't feel the same
You don't let all the pain surround you

All my words are dead in the air
Something's got you running scared
If you won't ever hear what you don't what to know
My words are dead in the air oh
You're never going to know
You're never going to know
You're never going to know

With a cold black heart
You're shinning the brightest
When you're in the dark
You got so excited
Cause you left your mark
You got what you wanted
There's no words
There's no words

All my words are dead in the air
Something's got you running scared
If you won't ever hear what you don't what to know
My words are dead in the air oh
You're never going to know
You're never going to know
You're never going to know
