

Exorcism

Otherwise

You got a condition
You need more than medication
Yes I can see the cold discoloration of your soul
Yeah in this head on collision
You got me losing my vision
With schizophrenic decisions
You got your own sacreligion
You don't need a doctor no
You don't need a doctor

Oh you need an exorcism
Oh you need an exorcism
You wear the mark of the beast
Send a young one, send me an old priest
Oh you need an exorcism

Now I'm losing my religion
Didn't know that it was missing
Until I saw your face and felt your cold embrace
I can see the evil in your eyes
Like your dead up inside
I've had enough of the lies the lies the lies
You don't need a doctor no
You don't need a doctor

Oh you need an exorcism
Oh you need an exorcism
You wear the mark of the beast
Send a young one, send me an old priest
Oh you need an exorcism

All the darkest things that have transpired
On your wedding day a funeral pyre
Holy water and immortal fires
Send me all your beautiful vampires

All the darkest things that have transpired
