

# Failure

Otherwise

Failure is not an option  
The hate the fear the shame  
The enemies I helped you to create  
Self denigration  
Letting lies abound  
Pulling me pulling me pulling me down  
Another laceration  
Skin splits like a divided nation

Moment comes, the moment's gone

You better stand for something  
Don't want to die for nothing  
You gotta light that spark  
Gotta make your mark  
While the blood's still pumping  
You better stand for something  
Don't want to die for nothing  
Daddy always told me  
Failure is not an option

So pray until your god obeys  
In answer to your fate  
Self mutilation  
Skin splits like a divided nation  
They say just take it day by day  
Until you make a play  
A declaration  
Remember me for generations  
Moment comes the moment's gone

You better stand for something  
Don't want to die for nothing  
You gotta light that spark  
Gotta make your mark  
While the blood's still pumping  
You better stand for something  
Don't want to die for nothing  
Daddy always told me  
Failure is not an option

They whisper in your ear  
They want you to adhere  
Don't let the evil engineer  
They whisper in your ear  
Keep feeding on your fear  
Don't let the evil engineer

You better stand for something  
Don't want to die for nothing  
You gotta light that spark  
Gotta make your mark  
While the blood's still pumping  
You better stand for something  
Don't want to die for nothing  
You gotta light that spark  
Gotta make your mark

While the blood's still pumping  
You gotta light that spark  
Gotta make your mark  
Daddy always told me  
Failure is not an option
