

# La Familia

Otherwise

It kills me when I walk away  
But sometimes I just can't stay  
I know what you will say  
When things don't go your way  
So the show goes on and on

Everytime I got to leave  
Getting harder can't you see  
I do it for my sanity  
I do it for the family  
Everytime I got to leave  
I just need you to believe  
I do it for my dignity  
I do it for the family

I know exactly what you want  
But some things are too far gone  
Drifting farther as we go  
Like the unborn child that we'll never know  
So the show goes on and on  
And on and on  
It must go on

Everytime I got to leave  
Getting harder can't you see  
I do it for my sanity  
I do it for the family  
Everytime I got to leave  
I just need you to believe  
I do it for my dignity  
I do it for the family

Sometimes I wish that I was dead  
Dying from everything you said  
Just like a bullet through my head  
Just like a bullet through my head  
Sometimes I wish that I was dead  
Dying from everything you said  
Just like a bullet through my head

Everytime I got to leave  
Getting harder can't you see  
I do it for my sanity  
I do it for the family  
Everytime I got to leave  
I just need you to believe  
I do it for my dignity  
I do it for the family

Sometimes I wish that I was dead  
Can't heal from everything you said  
Just like a bullet through my head  
Just like a bullet through my head
