

Paradise

Otherwise

All the pretty things making you insane
Love to hate the pleasure 'cause you can't enjoy the pain
All the deadly vices running through your veins
Spirits leave you haunted is it what you wanted
Twisted DNA you need therapy
Fuck that guy up in the mirror watch him fade away
Sit behind a desk while you're blowing out your brains
Just push 'em all away
(Paradise)

Live and burn tonight
A dying star so bright
Using wrong to make it right
Addicted to paradise
(Paradise)
Do or die tonight
Addicted to paradise

Look at all them lines
Running down your face
Just another skeleton
Just a wasted space
Judgment day is coming
Better know your place
Raising up your glasses
Poisoning the masses
Now it's killing you
What you going to do
Help is staring back at you
So better let em through
Let your body pay the price
Passing up the truth
So what you gonna do

Live and burn tonight
A dying star so bright
Using wrong to make it right
Addicted to paradise
(Paradise)
Do or die tonight
Addicted to paradise

Do or die tonight
Addicted to paradise

Twisted DNA you need therapy
Fuck that guy up in the mirror and make him go away
Now it's killing you, what you gonna do
Help is staring back at you, you better let em through

Live and burn tonight
A dying star so bright
Using wrong to make it right
Addicted to paradise
(Paradise)
Do or die tonight
Addicted to paradise
