

Walk Away

Otherwise

Save yourself from winter, far from any sun
Your voice is like a whisper
Distant from the one that I used to know
Before your heart turned cold

Just walk away, 'cause love don't live forever
Far from the pain, the scars you will remember
Just walk away

The fire in the center is slowly burning out
Far from any answers
We should've figured out that the lies are all the same
When there's always one to blame

Just walk away, 'cause love don't live forever
Far from the pain, the scars you will remember
Now I'm out here on the ledge
Barely hanging by a thread
Just walk away
Just walk away

It wasn't you, it wasn't me
We never meant to be
As one...

Just walk away, 'cause love don't live forever
I'll take the pain, just walk away

Just walk away, 'cause love don't live forever
Far from the pain, the scars you will remember
Now I'm out here on the ledge
Barely hanging by a thread
Just walk away
Just walk away

Just walk away
Just walk away
Just walk away
