All For You

Our Lady Peace

A suburban man at my door But I don't think I'll let him in He wants discipline Discipline, control over the way I live Wants the best for me Old school philosophy But I can't turn my back on him He's a part of me Buy me anything but I just need a friend

It's all for you You got me where you want It's all for you, oh Just stop breaking my heart You're the blood of a seed and its all that I need Got me where you want It's all for you, oh You got me, oh, you got me

Jack Kerouac K-K-K-Kerouac On the road and in my head And the irrelevance, intelligence A new tattoo a lot more sex Broken families A new enemy And you will not make up for this This suburban man he wants discipline But I just need a friend

It's all for you You got me where you want It's all for you Just stop breaking my heart You're the blood of a seed and its all that I need Got me where you want It's all for you You got me, oh, you got me where you want

Leave me alone Oh, leave me alone

So never run You got me where you want All for you, stop breaking my heart

Youuuuuuuu You got me where you want Its all for you, oh Stop breaking my, stop breaking my heart You're the blood of a seed and its that I need Got me where you want Its all for you, oh Cause you got me, oh, you got me where you want It's all for you Oh Just stop breaking my, stop breaking my heart It's all for you, oh Got me, got me where you want It's all for you My heart It's all for you, oh You got me oh, you got me where you want Leave me alone
