

# Nice to Meet You

Our Lady Peace

Hold up  
Got these feelings in a bad place  
It's ok  
I'm just hanging by a thread today  
Hey hey  
It's alright  
I'm not running from these monsters  
But I'll wait for you to come down from that Milky Way

Look at the guns look at the gold  
Look at the sky look at the smoke  
Look at the kids look at what we sold out  
Of this place

I will wait  
I will wait  
I will wait for you to come down  
I'd really like to meet you  
Like to meet you  
I will wait  
I will wait  
I will wait for you to come down  
I'd really like to meet you  
Like to meet you

Hold up  
You're an angel kind of nervous  
It's ok  
You did nothing to deserve this fate

Look at the guns look at the gold  
Look at the sky look at the smoke  
Look at the kids look at what we sold out  
Of this place

I will wait  
I will wait  
I will wait for you to come down  
I'd really like to meet you  
Like to meet you  
I will wait  
I will wait  
I will wait for you to come down  
I'd really like to meet you  
Like to meet you  
I will wait  
I will wait  
I will wait for you to come down  
I'd really like to meet you  
Like to meet you  
I will wait  
I will wait  
I will wait for you to come down  
I'd really like to meet you  
Like to meet you  
I will wait  
I'd like to meet you

Look at the guns look at the gold  
Look at the sky look at the smoke  
Look at the kids look at what we sold out  
I'd like to meet you
