

The Message

Our Lady Peace

Well I thought I lost her
Written over her face
She was a beautiful monster
Like a rat in a maze

We go one by one
Then go two by two
Into the God machine
Where I can't tell what the hell is too high

Ain't got the message that it's real
But I hate when the mess gets in the way, hey
Hey, and life simulations got it's feels
But you wouldn't have it any other way, hey
Got a long, long way to go
Got a long, long way to go

Divine intervention
She's a human race
Got manipulations, she's time and space

We go one by one
Then go two by two
Into the God machine
Where I can't tell what the hell is too high

Ain't got the message that it's real
But I hate when the mess gets in the way, hey
Hey, and life simulations got it's feels
But you wouldn't have it any other way, hey
Got a long, long way to go
Got a long, long way to go

Got a long, long way to go
Got a long, long way to go
Got a long, long way to go
Got a long, long way to go
Got a long, long way to go
Got a long, long way to go
Got a long, long way to go (no message)
Got a long, long way to go (no message)
Got a long, long way to go (no message)
Got a long, long way to go
