

Demons

Our Last Night

Buried far beneath
Hiding in the deep
The perfect enemy, oh-woah
The darkness changes shape
To exist in every place
There is no escape, oh-woah

Like spiders spinning a
Web of deception
We're tangled up

We can't let our demons take control of us
We should know what we are capable of
We all have a dark side
Don't be scared, you can't hide
So we pray that we have the strength to fight

Waiting in the wings
Preying on the weak
Conspiring while we sleep, oh-woah
Creatures of the night
Hidden in plain sight
Powerless in the light, oh-woah

We can't let our demons take control of us
We should know what we are capable of
We all have a dark side
Don't be scared, you can't hide
So we pray that we have the strength to fight
We pray we have the strength to fight
We pray we have the strength to fight

No one's soul is safe from the demons inside us
No one's soul is safe from it all
No one's soul is safe from the demons inside us
No one's soul is safe from it all

No one's soul is safe from the demons inside of us
No one's soul is safe from 'em all
No one's soul is safe from the demons inside of us
No one's soul is safe from 'em all

We can't let our demons take control of us
We should know what we are capable of
We all have a dark side
Don't be scared, you can't hide
So we pray that we have the strength to fight
We pray we have the strength to fight

No one's soul is safe from the demons inside us
(Inside of us)
No one's soul is safe from it all
(Inside of us)
No one's soul is safe from the demons inside us
(Inside of us)
No one's soul is safe from it all
(No one's soul is safe)

No one's soul is safe from the demons inside us
No one's soul is safe from it all
