

Soul Speak

Our Last Night

There's too many minds around me
This company is making me crazy

There's voices in my head
Breaking my spirit
Can't stop wishing they were dead
Don't wanna hear it
Opinions in my head
My biggest fear is that
They'll multiply and spread
Don't wanna feel it

I'm looking, looking, looking over my shoulder
As paranoid, paranoid as a criminal

There's too many minds around me
This company is making me crazy
And I know I shouldn't care what they think
There's too many minds around me
I can't let my soul speak
(I can't let my soul speak)

Illusions in my head
Make me believe that
The monsters under my bed
Can hear me breathing

I'm looking, looking, looking over my shoulder
As paranoid, paranoid as a criminal

There's too many minds around me
This company is making me crazy
And I know I shouldn't care what they think
There's too many minds around me
I can't let my soul speak

(Soul speak, soul speak)
I gotta let my soul speak
(Soul speak, soul speak)
Gotta let my soul speak, yeah

There's too many minds around me
This company is making me crazy
And I know I shouldn't care what they think
There's too many minds around me
I can't let my soul speak

(Soul speak, soul speak)
(Soul speak, soul speak)
I can't let my soul speak
(I can't let my soul speak)
