

## The Deep End

### Our Last Night

I spent all my time erasing the patterns  
That I thought were irrelevant  
One changing that mattered

The years and years I threw away have led me to a better day  
And now that you have found me I can lock away my heart

(I spent all my time) I spent all my time erasing the patterns  
That I thought were irrelevant  
One changing that mattered  
You have saved me from the deep end  
You've saved me from the deep end  
You've saved me from the deep end

Faster and faster I started to see  
That my emotions were gone and where I needed to be  
To get my heartbeat back into my chest

(I spent all my time) I spent all my time erasing the patterns  
That I thought were irrelevant  
One changing that mattered  
You have saved me from the deep end  
You've saved me from the deep end  
You've saved me from the deep end

You had my world in your hands  
But the blindfolds kept me from seeing you  
My power to love stayed buried in the sand  
Until I saw you waiting

I spent all my time erasing the patterns  
That I thought were irrelevant  
One changing that mattered  
You have saved me from the deep end  
You've saved me from the deep end  
You've saved me from the deep end
