

# Tidal Wave

## Our Last Night

Meet you in the tidal

Broken, abandoned  
This is all you've ever known  
Drowning, breathless  
How much further can you go?

It feels like the world keeps spinning out  
And nobody's there when you're crashing down  
But I'm here with you (I'm here with you)

You might feel like a tidal wave  
Is pulling you under (Pulling you under)  
You might feel like you can't escape  
The pain and the thunder (Pain and the thunder)

Hold on, wherever you are  
I won't let you fall apart  
Do you feel me with you in the tidal wave? (With you in the tidal wave)

The voices in your head  
Are screaming that you're meant to be alone  
It leaves you hopeless  
Looking for a place that feels like home

But when you're lost out in the dark  
Picking up the pieces of a broken heart  
Yeah, I'm here with you (I'm here with you)

You might feel like a tidal wave  
Is pulling you under (Pulling you under)  
You might feel like you can't escape  
The pain and the thunder (Pain and the thunder)

Hold on, wherever you are  
I won't let you fall apart  
Do you feel me with you in the tidal wave?  
With you in the tidal wave (With you in the tidal wave)

I'm gonna keep you safe  
Under the tidal wave  
I'll be the breath you take  
Under the tidal wave

You might feel like a tidal wave  
Is pulling you under  
You might feel like you can't escape  
The pain and the thunder

Hold on, wherever you are  
I won't let you fall apart  
Do you feel me with you in the tidal wave?

I'm gonna keep you safe (With you in the tidal wave)  
Under the tidal wave  
I'll be the breath you take  
Under the tidal wave

With you in the tidal wave (Do you feel me here)  
With you in the tidal wave
