

# Through The Night

## Our Mirage

For a thousand times I said  
That your future lies ahead  
But you crawled inside your shelter playing dead

So will you scream my name?  
When you know you've lost the game  
To the darkness beneath  
And the air that we breathe  
Is wearing thin but I see the light  
So why can't you make it through the night?

I gave you everything I had  
It's not that hard to understand  
That I'm here to help so take my hand!  
Your eyes are brighter than the light  
So why can't you make it through the night?  
So keep your head up high, because the stars are in sight

So keep your head up high  
Because the  
Because the stars are in sight  
Why can't you make it?  
Why can't you make it?

You want to live like you lived back then  
But first you need to find yourself again  
'Cause all you see  
Is yourself and not me  
I'm here to help so

So will you scream my name?  
When you know you've lost the game  
To the darkness beneath  
And the air that we breathe  
Is wearing thin but I see the light  
So why can't you...  
So why can't you make it through the night?

I gave you everything I had  
It's not that hard to understand  
That I'm here to help so take my hand!  
Your eyes are brighter than the light  
So why can't you make it through the night?  
So keep your head up, because the stars are in sight

Let me bring this to an end  
That you can see yourself again  
Reach out for the stars  
That lie beneath those scars

Solace  
I know you crave for solace  
Hopeless  
I know that you are hopeless  
Hopeless  
Solace  
I know you crave for solace

Hopeless

I know that you are hopeless

Hopeless

I gave you everything I had

It's not that hard to understand

That I'm here to help so take my hand!

Your eyes are brighter than the light

So why can't you make it through the night?

So keep your head up, because the stars are in sight
