

## Vicious Cycle

## Our Mirage

Trapped in a vicious cycle

I can't go on pretending that I'm fine  
I remember the times we had  
But I'm unable to see your face at daytime

Trapped in a vicious cycle  
My memory remains incomplete  
Trapped in a vicious cycle  
But come alive when I go to sleep

Why don't you give me a sign  
I need a last one  
When I'm awake, I'm a walking disaster  
Fire up my heart and let it burn  
Why don't you give me a sign  
These dreams don't last, love  
I see your ghost, need to get to you faster  
And each night is a lesson I didn't learn  
A lesson I didn't learn

I lost my purpose as you took it away

Trapped in a vicious cycle  
My memory remains incomplete  
Trapped in a vicious cycle  
But come alive when I go to sleep

Why don't you give me a sign  
I need a last one  
When I'm awake, I'm a walking disaster  
Fire up my heart and let it burn  
Why don't you give me a sign  
These dreams don't last, love  
I see your ghost, need to get to you faster  
And each night is a lesson I didn't learn  
A lesson I didn't learn

It feels like it was yesterday  
In truth it has been years  
You disappeared, I lost my way  
I drowned in endless tears  
An endless sleep, infinite dreams  
But I what do I have then?  
I know I have to live and breathe  
To be with you again

As I grab my gun  
And point it at my head  
I try to close my eyes and say goodbye  
Wishing I was dead  
But then my eyes won't close  
And I can't shoot my gun  
I suddenly wake up  
Blinded by the sun

Your face is crystal clear

It's like you are right here  
I hear your voice telling me I should have no fear

You insist that I don't do the same mistake  
That I'm loved in every move I make

Why don't you give me a sign  
I need a last one  
When I'm awake, I'm a walking disaster  
Fire up my heart and let it burn  
Why don't you give me a sign  
These dreams don't last, love  
I see your ghost, need to get to you faster  
And each night is a lesson I didn't learn  
A lesson I didn't learn
