

# Across The Clouds

Ours

Eyes that pull you in  
So warm  
So bright  
Drive through your skin  
Then steal your light  
But they can only comfort you tonight  
They can only comfort you tonight

Maybe I'll Take a ride with you  
Across the clouds  
I swear I see myself in you

Why the more it stings  
The more it seems right  
I tried to believe  
That if I did good then I  
Somehow would be comforted  
In life  
Somehow I'd be comforted with love

Maybe I'll  
Maybe I'll Take a ride with you  
Across the clouds  
I swear I see myself in you  
Take a ride with you  
Across the clouds  
That's where I see myself with you

Ooh I see the love  
I'll wake up every morning with love  
Oh like a baby  
Like a baby  
Like a baby  
I'll wake up in the morning with love  
I'll let go of the pain  
No more pain

Take a ride with you  
Across the clouds  
I swear I see myself with you  
Take a ride  
With you  
Across the clouds  
I swear I see myself with you  
With you  
With you  
You
