

## Been Down

Ours

It was an emotional time  
For my brother and I  
We did our best to survive  
But kept moving with time

I felt my back on the wall  
Fell through the crack of it all  
I felt something pick me up  
It felt so good to be loved

I've been down (x4)  
Now I'm going to the place in the sky

I did my best to stay up  
That never felt good enough  
But in the back of my mind  
I still was learning to fight

I've been down  
(Take me where I want to be)  
I've been down  
(Always gonna be what I want to be)  
I've been down  
(Take me where I want to be)  
I've been down  
Now I'm going to the place in the sky

I've got another way to survive

I've been down  
(Take me where I want to be)  
I've been down  
(Always gonna be what I want to be)  
I've been down  
(Take me where I want to be)  
I've been down  
Now I'm going to the place in the sky

It was an emotional time  
For my brother and I  
The fire ran in the sky  
And our mother once cried  
Spilling blood  
Blood that's from my father  
Blood that's from my brothers  
Hurting one another  
Hurting each other
