

# Believe

Ours

Hey, I'm on the fast train tonight  
Running for the light  
Will you be there  
Maybe just looking for a fight  
No one thinks I'm right but I don't care

There's always someone somewhere  
Trying to pull us down  
Pushing us around  
I'm out here on my own  
I cannot lose this sunset

I want to believe  
That love is enough  
Help me believe  
Open fire  
Come on

I rolled into town  
Got down on my knees to pray  
I know that something's going round  
Taking everyone away  
With all these pills we're feeling  
Higher and higher there's  
Got to be a better way  
Cannot lose yourself in this

I want to believe  
That love is enough  
Help me believe  
Open fire on my heart  
Believe  
My body is yours and I  
Surrender, surrender  
My body is yours

Fire  
Open fire

I want to believe  
That love is enough  
Help me believe  
Open fire on my heart  
Believe  
My body is yours and I  
Surrender, surrender  
My body is yours

Yours  
Yours
