

Coming for You

Ours

I, I worked out all that would show in my mind
And I, I guess the only problem here was mine

You were going through some changes but not telling me
You were headed for destruction all the while
You just went ahead and left me here with no repercussions
And your sigh

But hey, what you gonna do when?
Whatcha gonna do when? Whatcha gonna do when?
When it comes around?
Whatcha gonna do when? Whatcha gonna do when?
It's coming for you, coming for you now!

Divine, destruction of an Order and it's time
Designed to take all of the paper from your lie

You were going through the pages of your dirty mind
Showing me another way to use mine
Hesitation can be dangerous but fear is the killer this time...

Hey, whatcha gonna do when? Whatcha gonna do when?
(It's coming, it's coming...)
When it comes around?
Hey, whatcha gonna do when? Whatcha gonna do when?
(It's coming for me)
It's coming for you, it's coming for you now

And I am
Coming for you
Coming for you
Coming for you now...
