

# Devil

Ours

Today I lost the phone  
I dream alone  
'Cause no one ever calls  
For me

This space feels  
Far from home  
I need someone, they all think I've a play  
In me

Please...  
Take the devil in me  
And run, and run  
From the devil in me  
Run, run

It's too late now  
The bond is broke, the air is choked  
And all I ever hoped for  
Deceased

I may be  
Hard to own and far from wrong  
From wanting only to  
Be me

Please...  
Take the devil in me  
And run, and run  
From the devil in me  
Run, run

Believe in what you need to now  
For me it's over

Things you say...

OOOOHHHHHHH oooooooooo

TAKE THE DEVIL IN ME  
(I would have died, I would have tried)  
AND RUN, AND RUN  
(I could never learn to be, this what you want from me)  
PLEASE TAKE THE DEVIL IN ME  
(Your still alive, 'cause naked is as blind you see)  
AND RUN, AND RUN  
(Open your eyes, open your eyes)

It's getting complicated  
And I can't even see my point of view  
I tried  
I tried
