

Echo

Ours

I cried
Standing on the edge of town
I tried
Disappearing in the sound
The lights
Seem like they were fading out
Then I
Saw an angel crashing down

Baby if you hear me
Say that you can feel me now
And if you can feel me
Maybe you can bring me 'round

I find myself in the echo
I find myself in the echo

Your eyes
Illuminate the grayest sky
Oh so divine
Because they can see inside

Baby if you hear me
Say that you can feel me now
And if you can feel me
Maybe you can bring me around

I find myself in the echo
I find myself in the echo
I find myself in the echo
I find myself in the echo

Colors raging
Sounds are echoing love
Arms are reaching out like heaven above

I find myself in the echo
I find myself in the echo
I find myself in the echo

Bathing in the waves of sound
Bathing in the waves of sound
Bathing in the wave of sound
The sound
