

Get 'em Out

Ours

Nobody's getting me down
Nobody's telling me how
There's a time [?]
As we fade away [?]
Nobody's getting it out
Get 'em out of here
Get 'em out of here
Get 'em out of here
Don't want 'em now
Get 'em out of here
Get 'em out of here
Get 'em out
This kind of service is out
Sending a fire, it's cried [?]
There's a death with your name on it
For calling everyone out
Get 'em out of here
Get 'em out of here
Get 'em out of here
Don't want 'em now
Get 'em out of here
Get 'em out of here
Get 'em out
Don't want 'em now
Don't make me go
Shake me
Oh, living life out in the city
Burn down the bridge for you and me
The end is coming now
The edge is giving out
And pushing to my face
I guess I've got to learn to get around
One way, one world
Get 'em out of here
Get 'em out of here
Get 'em out of here
Don't want 'em now
Get 'em out of here
Get 'em out of here
Get 'em out
I don't want 'em now
Don't let them take
Take, and take, and take, and take
You'll break, you'll break, you'll break, you'll break
Get em out of here
Get em out of here
Get em out
Get em out of here
Get em out of here
Get em out
