Miles Away

Ours

I sit across from you
I... couldn't talk to you
I... should've tried
I should've tried

The words I want don't come out
Silence grows to a shout
But I was dying
Inside

Miles away
I missed you so much
Though you were here
You felt miles away

I put up walls that kept you out
I didn't want to but I was a child inside
The more that I'd hide
The more that I'd die inside

Miles away
I missed you so much
Though you were here
You felt miles away

So I go to the place where you are
And I go so far I fall
Fall, fall
Fall

Miles away
I missed you so much
Though you were here
You felt miles away
I miss you again
Miss you my friend
You are miles away

Walk through the fear
You were holding my hand
I told you the things
That I don't understand
I wanted you to hear
Wanted you there
I wanted to feel
That you wanted a plan

Now all I want is
Just to see you
To feel better
To feel better
To feel better
To feel better
