

## Pain Aside

Ours

I couldn't bear to lose you  
We've been over this thing  
A hundred times  
Take all the pain for you  
No one will ever see you cry  
They'll never see you cry

I'll put my pain aside  
Just to be in your life  
I'll be there when you cry  
If that's what you need tonight

I know the day kills you  
It gets under your skin, into your mind  
After everything we've been through  
You should know I will never leave your side  
I'll never leave your side

I'll put my pain aside  
Just to be in your life  
I'll be there when you cry  
If that's what you need tonight  
And the wolves they fantasize  
Just to be in your life  
I'll put my pain aside  
For love  
For love

I'll put my pain aside  
Just to be in your life  
I'll be there when you cry  
If that's what you need tonight  
And the wolves they fantasize  
Just to be in your life  
I'll put my pain aside

When you're all alone  
And faith is gone  
Crumbling inside  
Feeling low  
And you got nowhere to go  
I'll be there to hold you  
I'll be there to hold you tight  
I'll be there to hold you  
In the middle of the night  
The middle of the night

All of the diamonds they sold you  
Turn to coal in the light  
For the rest of the time  
I'll be there by your side  
I'll be there by your side

I love you  
I love you
