

# Rise

Ours

I wanna get inside  
Turn you on  
Pull you out  
I'll see what love is all about

And I, I wanna raise some hell tonight  
Take me to a place where I'll feel alive  
And light that fire  
Take me to your place  
Don't wanna be alone tonight

I won't lead you on  
You make it sound so sincere  
I feel my blood begin to boil

And I, I wanna break the spell tonight  
Take me to a place where I'll feel alive  
And light that fire  
Take me to your place  
Don't wanna be alone tonight

As we were dying  
To feel alive  
Out from the ash I heard a yearning ember cry  
Saying we will rise

I, I wanna raise some hell tonight  
Take me to a place where I'll feel alive  
And light, light that fire  
Take me to your place  
Don't wanna be alone tonight

And I, I wanna break the spell tonight  
Take me to a place where I'll feel alive  
And light that fire  
Take me to your place  
Don't wanna be alone tonight
