

# Shine

Ours

There, were flowers everywhere but now they're gone  
We could use a prayer or a song  
I could feel the changes coming on  
Getting colder in our hearts so

Light the fires of hell  
Find the star that fell  
Shine and you will lead us home  
To love

When violence took the air we couldn't talk  
I wasn't only scared but it was wrong  
Maybe this will be the moment of  
Opening our eyes

As crazy as it might ever seem  
I got it bad  
I can't see  
Please lift me up  
Please let me see  
Better than I have been seeing lately  
And

Light the fires of hell  
Find the star that fell  
Shine and you will lead us home  
To love

(And I wanna ride)

Light the fires of hell  
Find the star that fell  
Shine and you will lead us home  
To love

(And I wanna ride)
