

Sing

Ours

Don't throw yourself under the train
Control yourself some other way
And no more crying
It's time to let go
Sing for me, sing for me, sing for me
Sing for better [?]
Sing for me, sing for me, sing
Sing for pain
And throw yourself all over me
I know you're tired but will you stay?
After the fire, the light leaves a glow
Sing for me, sing for me, sing for me
Sing for better
Sing for me, sing for me, sing
Sing for pain
Until, until nothing matters
Until nothing matters
Until nothing matters
My friend, my friend
I wait to hear your voice, oh
Sing for me, sing for me, sing
Sing for pain
Sing for me, sing for me, sing
Sing for pain
Until, until nothing matters
Until nothing matters
Until nothing matters
Until nothing matters
