

Stand

Ours

Stand up if you're listening
You're a lie, you're alive
Now that you missed me
You get one more try, one more try
I bet you feel like you can

But I'm saying, now
You can't hurt me again
You can't hurt me again
You can't hurt me now

Swear until you miss me
But you cauterize, you cauterize
One day you'll find your mistake
And you close your eyes, you close your eyes

I'm saying, now
You can't hurt me again
You can't hurt me again
You can't hurt me now

I'm saying, no
You can't hurt me again
You can't hurt me again
You can't hurt me now

I ripped open my eyes
Got rid of all of the bad energy, bad energy
That's been causing the breaking of my heart

Pulled at the daylight
Has been showing the better to me, better to me and
I let go of the pain when I said goodbye
Now I'm saying, no

You can't hurt me again
(This time we have love to fight)
You can't hurt me again
(Turn this thing around)
You can't hurt me now

I'm saying, no
(This time we have learned to fight)
You can't hurt me again
(Turn this thing around)
You can't hurt me now
