

## Cry For Help

### Out Of The Grey

You say you're trying to change but you never have  
Maybe you need to talk to someone who would ask, why are you afraid?

I know there's someone real left behind the mask  
But you're running away and fading fast  
There's never been a better time to

Chorus 1:

Cry for help, cry for help to Someone who's near  
Someone who'll hear your cry

You do your best to pretend to be doing fine  
But you're dying inside your silence, why are you afraid?  
I know Someone who knows you inside and out  
He tells the truth that you can't live without  
There's never been a better time to

Chorus 2:

Cry for help, cry for help, there's Someone who's near  
Someone who'll hear your  
Cry for help, cry for help  
There's nothing to lose, nothing to do but cry

CHORUS 2

...There's nothing to lose, what can you do  
Swallow your pride, there's no more disguise  
Let go inside, now is the time to cry
