

Feels Like Real Life

Out Of The Grey

I've been thinking through the past
And remembering the pain
There's a world of difference
Between now and then

Cause Your love is washing over me
I can touch the change inside

It feels like real life
Though sometimes it hurts to face the truth
It feels like real life
Cause I'm growing closer to You

I've been pouring out my heart
So forgiveness fits inside
I've got a world of wounds ahead
But they don't scare me this time

Cause Your love is washing over me
I can touch the change inside

It feels like real life
Though sometimes it hurts to face the truth
It feels like real life
Cause I'm growing closer to You
It feels like real life
I am becoming something new
It feels like real life
Cause I'm growing closer to You

Pouring out my heart, love is washing over me
This is what it's like to finally come alive

It feels like real life
