

Lifelines

Out Of The Grey

Life will leave its lines upon your face and strands of silver
upon your head
And every struggle weaves inside and leaves a mark becoming part
of who you are
Can you see, can you feel them tugging at your heart

Chorus 1:

Lifelines, these are lifelines
Reminders of the times that we've come through
Lifelines, we get lifelines
To show us what the love of God can do, He pulls us through

History has left a single thread
Stretching through the ages in letters on a page
Written in each line His story says He will not forsake us
Can you see, can you feel them tugging at your heart

Chorus 2:

Lifelines, these are lifelines
Reminders of the times that He's come through
Lifelines, He sends lifelines
When holding on is all that we can do, He pulls us through

Life is like the spinning of the spider web
Every line the fingerprint of time
The manifest impressions of the soul are written in the eyes

Vamp:

CHORUS 2

Repeat VAMP and fade
