Anything you need yeah

You already know

Let's go!
Look around I'm doing good I hope you feel the same
I know it's not that easy now a days
But somewhere
Down the line you gotta go and catch an upgrade
I'm about to level up get out my way
And you know that
Everyday I'm hustlin And nothing ever change
I'm runnin down my dreams like the only money
I don't think about tomorrow while I'm here today
Holler at me You know what I'll say

You already know that I got you (got you)
You already know got you (got you)
You already know that I got you
I got you
I got you
You ain't gotta think twice
You already know that I got you (You already know)
You already know I got you (You already know)
Anything you need know I got you
(Anything you need, anything you need)
Never let em tell ya that ya can't do your thing

I'm hotter than a summer out in Phoenix, Arizona
Sippin' on a 98, myabe a Corona
If you sleepin on me then you must be in a coma
Here's a cup of coffee, come 'n join us if you wanna

I don't care what you say
Ridin' around this new thing
Dressed like the 90s
I'm SoCal, I'm Hyphy
Don't like me, unlikely
Peace, love, and Nikes
Holler at me, you know where I'll be

You already know I got you (I'm way way up)
You already know that I got you (I'm way way up)
You already know that I got you
I got you
I got you
You ain't gotta think twice
You already know that
I got you (I'm way way up)

You already know I got you (I'm way way up)
Anything you need know I got you
I got you
I got you
Never let em tell ya that ya can't do your thing

Never let em tell ya that ya can't do your thing
Never let em tell ya that ya can't do your thing
