

## Roll Call

## Outasight

Roll call, where you at where you at  
From the front to back, I can't hear ya  
Roll call, where you at where you at  
From the front to back, I can't hear ya

Spectacular  
I stay up all night like Dracula  
Yeah I talk wild shit and I back it up  
I'm a dufflebag boy now back it up  
Yeah, sipping my drink in a plastic cup  
Got the crowd tripping out like that's what up  
Yeah, I hang my tushie in the rafters bruh  
But I ain't done, this just begun

I mean woo-hoo  
Something you can move to, make you go cuckoo  
You don't sound right  
I'll make another head, give you a soundbite  
Woo-hoo  
Something you should know y'all, make you go loco  
That means crazy  
I'm dripping, I'm certainly wavy

I pledge allegiance to the swag  
Now clap your hands

Roll call  
Hit it now  
Go, go, go, go  
Go, go, go

So marvelous  
A style like this, real hard to get, I mean  
I'm too good, it's obvious  
Give me a call, I'll tell you what your problem is  
First off TikToks don't kill my vibe  
In a pair of tube socks and Gucci slides  
A glass of lemonade and a cheer outside  
Doing the crossword from the New York Times

I mean woo-hoo  
Something you can mosh to, fix up your posture  
You want that good-good?  
Homie, I got you  
Woo-hoo  
Something to go buck to after Timbuktu  
For all the minors out there  
It wasn't me

I pledge allegiance to the bag  
Now clap your hands  
Everybody clap your hands  
I pledge allegiance to the swag  
Now clap your hands  
Everybody clap your hands

Roll call

From the front to the back, let me see you where you at  
Hit it now  
From the front to the back, let me see you where you at

Roll call, where you at where you at  
From the front to back, I can't hear ya  
Roll call, where you at where you at  
From the front to back, I can't hear ya

Roll call  
Hey  
From the front to the back, let me see you where you at  
Hey  
From the front to the back, let me see you where you at
