

Say Hey

Outasight

Put 'em up to the sky
Wave your hands side to side
Yeah I'm coming alive
I know you're feeling it
Put 'em up real high
Wave your hands left to right
Yeah I won't stay quiet
I know you're hearing me

Say hey
I'm ready now to move
Say hey
There's nothing left to lose
So if you're riding with me, put 'em up right now
So if you're riding with me, put 'em up right now
Say hey
You know what to do
Put 'em up, put 'em up

I been thinking that maybe I'm different
And I can make a difference so that's how I'm living
I been doin' it harder than any human
Farther than any movement you can envision
And I been hoping that my past days of hopeless
Are long gone emotions that made me way stronger
I been going despite what I'm knowing
That no one believes I can make it much longer

I got my whole life ahead of me
Starting right now
There's only one way left to go... whoa

Say hey
I'm ready now to move
Say hey
There's nothing left to lose
So if you're riding with me, put 'em up right now
So if you're riding with me, put 'em up right now
Say hey
You know what to do
Put 'em up, put 'em up

And I been fighting a clash of the titans
Speaking my mind not sitting here in silence
And I been holding too much onto moments
That don't make the person right now who I am
And I been tripping another bad position
With no room for winning just leaving me wilding
Now I'm focused on only going forward
Whatever that's towards I know I'm fine with it

Got my whole life ahead of me
Starting right now
There's only one way left to go... whoa

Say hey
I'm ready now to move

Say hey
There's nothing left to lose
So if you're riding with me, put 'em up right now
So if you're riding with me, put 'em up right now
Say hey
You know what to do
Put 'em up, put 'em up

Put 'em up to the sky
Wave your hands side to side
Yeah I'm coming alive
I know you're feeling it
Put 'em up real high
Wave your hands left to right
Yeah I won't stay quiet
I know you're hearing me

Say hey
I'm ready now to move
Say hey
There's nothing left to lose
So if you're riding with me, put 'em up right now
So if you're riding with me, put 'em up right now
Say hey
You know what to do
Put 'em up, put 'em up

Put 'em up to the sky
Put 'em up, put 'em up
Put 'em up to the sky
Put 'em up, put 'em up
Put 'em up to the sky
Put 'em up, put 'em up
Put 'em up to the sky
Put 'em up, put 'em up
